I got the urge one warm Saturday evening while I was lazily playing with my pussy I telephoned Bill and asked him to come over and shave my cunt. He was at my door within ten minutes. I lay down, spread my legs and rubbed my slit. Then I watched as he lathered me up and began shaving off my stretch hair. My flesh began to tingle with nervousness as I grew smoother.

My shaved pussy was an erotic dream come true. Since my lips were totally exposed, I thought I would die of pleasure whenever Eli licked them. My clit was revealed also, so there was no fumbling when Eli tried to find and stroke it. My smooth little sex machine was giving me all kinds of thrills. And Eli was getting off on it too. His cock was bulging inside his pants. When I unzipped him, he was hard and throbbing. I took his thick stick and brought the tip to my lips to kiss it. I licked him up and down his length, then sucked him in deep. I loved the feel of my mouth being filled by Eli's big, thick prick. I loved his strong cock!

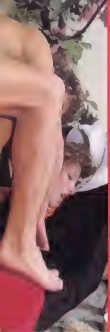

Being a girl with smooth moves was changing my life! Every caress was intensely pleasurable. When Bill licked me, my pussy seemed to catch fire. And when he touched me, it was as though someone was turning me on with a magic vibrator. But the best moment came when Bill rolled me over and hovered between my legs. He lowered himself down to my pussy, then edged his thick prick between my cleavage lips to fuck me deep. I cried out with joy as I felt all of him inside me. My naked cunt lips wrapped themselves around him and held him tight. Every inch of his man sized cock stimulated me. Being naked down there was a real cum dream!

My muff was clearly shaven and I'll couldn't get enough of it. I loved the way he stroked me and teased me, then planted his big cock against me and drove me wild. He told me that my naked pussy was the most beautiful one he'd ever seen and that he would never stop looking at me. I was delighted to hear that. I loved his big cock so much that I begged him to stuff it inside me again. He rolled me over, flicked me into a state of ecstasy, then knelt behind me and plunged his stiff prick deep into my sex hole. I cried out as I came copiously.

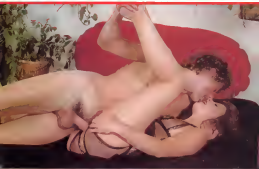

It's only fair that a woman should show her cunt. After all, a man's cock stands out, is naked and accessible. So why shouldn't a girl's pussy be just as exposed? And when a stud like Bill peels open my pussy lips and begins pumping me deep inside, I know that I've done the sexy thing by showing. There's nothing like the feel of a hot tongue against a naked self and all for making a girl come!

Bill drove me to a wild climax with his sizzling snake-of-a-tongue. But I wanted more. I lay on top of him and lowered myself down to his cock. I worked myself onto him slowly, feeling his throbbing fuck juices invade the deepest recesses of my cunt. I fucked him hard back to front with me. I worked feverently up and down his pole until I came. With my sweetest moves I felt every inch!

My fuckfest had thrilled me. My smooth little snatch had turned him on so much that he didn't seem able to stop. He stayed big and hard until I was exhausted from pumping. Then he fucked me once more, driving his cock deep into me. I felt him begin to explode and grabbed him. I wanted to watch him come, to see all of his jism squirt from his swollen knob onto my soiled pussy. I wanted every drop from my man!
